

**THE ULTIMATE ORGANIC PLANT FOOD** is what we help our worms create in the form of Supercharged worm juice concentrate and castings. Plants need a consistent supply of active biology to stay healthy and replenish the soil.

Recommended use of Worm Juice:

Do not apply to dry soil or in full sunlight. Spraying the leaf is most efficient. First application, 50ml of juice in 1 litre of water.

(We recommend rain water\*)

Second application, 15 to 20 days later, 30ml of juice in 1 litre water

Continued applications, at 15-to-20-day intervals, 20ml of juice in 1 litre water

1 litre of juice to 20 litres water will cover 500 m<sup>2</sup>. (20ml to 1 litre mix)

rain water\* City tap water has Chlorine added to sanitize and kill all bacteria-microbes. Which can include the microbes in your worm juice!

Maintenance: Leave lid off worm juice container for oxygen. Shake for 10 seconds each day to invigorate microbes. Store in a cool place away from sunlight.

Recommended use of Worm Castings:

1 x handful (1/3 metric cup) of castings in the bottom of the hole for seedlings. Place plant roots on top of castings, firm up soil around plant, water in with juice mix.

3 x handful to 1 kilogram of seed raising mix, thoroughly mix together

1 Kilogram castings to 20 kilograms garden soil, thoroughly mix together

Maintenance: Keep castings bucket with lid loose for oxygen,

keep moist. Store in a cool place away from sunlight.

## **Made in Australia - 100% environmentally safe**

Our organic worm juice and castings are loaded with billions of living beneficial microbes and over 70 mineral nutrients and trace elements. There are also soluble humates which are good beneficial fungi promotants, growth stimulants and all the other benefits it brings.

Plus, beneficial fungi including, Bacillus, Trichoderma and Mycorrhizal.

There is nothing as good as living active microbes for your plants and soil!

Adding castings to kick start soil biology and then a steady supply of juice to the plants will reduce your inputs over the long term, saving you money. Castings also help hold moisture around the plants root zone!

Plants need a steady flow of nutrients as they constantly deplete the soil of nutrition to grow.

Foliar spray (leaf spraying with pressure spray pack) is an instant supply of plant nutrition when sprayed at the correct leaf temperature. If any more information is required, contact us.

The juice has been filtered ready for any nozzle or drip systems.

What and how we feed our worms, offers amazing benefits to your plants & soil. Our supercharged organic worm juice and castings are potent biological active plant foods. Healthy plants need a consistent supply of active soil biology, to maintain the nutrition levels needed to pass the benefits on to you. Please contact us anytime for help!

For soil & plant application only

Not for human or animal consumption

Keep out of reach of children
